FOR IMMEDIATE RELEASE

GIVE CURIOUS CATS THE RED LIGHT IN YOUR GARDEN OR YARD WITH CONTECH'S CATSTOP ULTRASONIC REPELLENT

*CatStop Is Humane and Safe With its High Pitched, Ultrasonic Alarm
that Gently Frightens Cats Away From Unwanted Areas*

Victoria, BC (September, 2004) – Are you tired of picking up after your neighbour's cats? Of having your fish plucked right out of your pond? Of having messy paw prints all over your freshly washed car? Let the CatStop solve your problems. CatStop's built-in motion sensor catches cats in the act, and a burst of ultrasonic sound frightens them away. You and your neighbours can't hear it, but cats detest it. CatStop keeps unwanted cats out of your flowers, garden, yard or pond. You'll soon be enjoying the sweet smell of flowers instead of the smell left behind by the neighbourhood cats.

"CatStop is for anyone looking for a safe, humane way to manage the cat next door who finds another's yard or garden a homier haven than his own," said Erik Djukastein, president of Contech. "Customer comments indicated many people experienced the universal problem of cats digging in gardens and leaving a mess behind. The CatStop will help keep cats from roaming in your yard, digging in your garden and messing up the kids' sandbox. Those not so courteous cats will learn the lesson quickly and avoid your yard in the future. Cats are intelligent animals, and they learn from experience, just like people," Djukastein added.

CatStop operates for up to nine months on one standard 9-volt battery and covers an area up to 300 square feet. There are no controls or adjustments to worry about. Simply install the battery and position in the yard or garden. Users can mount CatStop on a wall or on the enclosed stake. CatStop measures 18 inches high and is made of weather-resistant ABS plastic. CatStop is available for purchase through garden product retailers, as well as online at www.scatmat.com.

2-2-2

Contech Electronics Inc., based in Victoria, British Columbia, was formed 17 years ago. President Erik Djukastein and his late father, Klaus Djukastein, made it the company's mission to improve harmony between animals and humans. Their focus on developing, manufacturing and marketing innovative new patented devices that really work has made Contech a leader in the quickly emerging genre of electronic animal training aides. The company is also known for its award-winning ScareCrow outdoor animal-repelling sprinkler and its patented ScatMat, designed to keep animals off the furniture. For more information on Contech or its products, call 1-800-767-8658 or visit www.scatmat.com.
