FOR IMMEDIATE RELEASE

Contech Electronics Moves to Larger Facility

Contech Electronics expands to 13,000 sq ft facility in Victoria's Keating Industrial Park Area

Victoria, BC (29 March, 2004): With the addition of more employees and an expanding product line, Contech Electronics has moved facilities. Moving from a rented location of just under 6,000 Contech has purchased a brand new 13,000 sq. foot facility in the Keating Industrial area of Victoria, BC, Canada.

Victoria is located on the southernmost tip of Vancouver Island and has been home to Contech Electronics for all of it's 16 years. While the move to the new location is significant in size, the move was minor in distance, with its new location less than a mile away from the original. Contech started out renting a small portion of office space back in 1987 and remained at the same location, gradually expanding more and more until they had taken over then entire bottom half of the facility. With no more room for expansion, a move to their own facilities became inevitable.

This expansion will help facilitate Contech's growing product lines as it continues to expand in the markets of pest control and pet aids. Most recently added to Contech's product line is the WaterDog Automatic Outdoor Pet Fountain. The WaterDog is an intelligent fountain that senses when your dog approaches, and dispenses a cool stream of fresh water. A constant supply of fresh, cool water is essential to any dog's health, this is especially true in the summer when water that is left out in a bowl may be come too heated for your dog to drink, or may be a breeding ground for bacteria and parasites that can cause serious problems. The WaterDog alleviates worry about whether your dog has access to fresh cool water at all times.

Contech Electronics Inc. was founded 16 years ago. President Erik Djukastein and his late father, Klaus Djukastein, made it the company's mission to improve harmony between animals and humans. Their focus on developing innovative new devices that really work has made Contech a leader in the pet industry. Contech is also known for its award-winning Scarecrow outdoor animal-repelling sprinkler and its patented Scat Mat, designed to keep animals off furniture.
